

Sample Header Image

SAMPLE MYSTERY

By Your Name Goes Here

CONCEPT

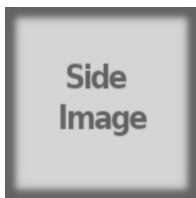

This is where you will put the text describing the content of your mystery. You can use the same syntax for the Hook, the Background, and anything else your mystery needs!

You can add centered images anywhere in a page:

COUNTDOWN

Day	This is where your countdown starts
Shadows	Each day is a separate parameter
Sunset	You can put <i>formatted</i> text in here too, if you like
Dusk	Even lists with items <ul style="list-style-type: none">• Item 1• Item 2
Nightfall	I hope your hunters have figured things out by here
Midnight	Because usually this last step is pretty dangerous

Side images are trickier. As you can see, you have to pass the text that will go beside the image as a parameter. Like before, you can *format* the text however you want, including headings and lists.

THREATS

DOCTOR MINIONSON

Minion: Renfield (motivation: to push victims towards the monster)

This is how you add a monster, minion, phenomenon, bystander, or location. The second parameter is one of those categories, and the third is the specific type (such as 'beast' or 'cultist') All the categories and types from both Monster of the Week as well as Tome of Mysteries can be used.

Powers:

- **A Cool Power** You can add powers in itemized lists, like this
- **Less cool Power** and this

Attacks: **An attack:** You can also add stats in blocks **another attack:** like these two attacks

Armor: **Sturdy Lab coat:** 1-armor

Harm Capacity: 10. ☐☐☐☐☐ ☐☐☐☐☐

Don't forget your monster or minion's harm track, which can be done like this

Harm Capacity: 10. ☐☐☐☐☐| ☐☐☐☐☐

Or this, if you want it to have an unstable mark

Harm Capacity: 7. ☐☐☐☐|☐☐ ☐☐

Or this, if your monster or minion is merely human

DR MINIONSON'S LAIR

Location: Lab (motivation: to create weirdness)

This is an example location. You can add moves to it, just like other Threats, by using mStatList and mStatBlock sections.

Custom Moves:

- **Dangerous experiments**
Dr. Mininson's experiments are everywhere. Occasionally, one bursts into flame, or shoots sparks, or crawls away.

Lastly, here is how to put an image at the bottom of the page:

Notice that it places the image on the bottom of the page, even though this text comes after it.
